

RStudio IDE :: CHEAT SHEET

Documents and Apps

Check spelling Render output Choose output format Choose output location Insert code chunk

Jump to previous chunk Jump to next chunk Run selected lines Publish to server Show file outline

Access markdown guide at **Help > Markdown Quick Reference**

Jump to chunk Set knitr chunk options Run this and all previous code chunks Run this code chunk

RStudio recognizes that files named **app.R**, **server.R**, **ui.R**, and **global.R** belong to a shiny app

Run app Choose location to view app Publish to shinyapps.io or server Manage publish accounts

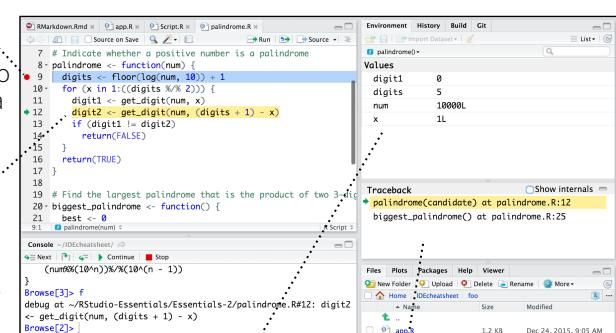

Debug Mode

Open with **debug()**, **browser()**, or a breakpoint. RStudio will open the debugger mode when it encounters a breakpoint while executing code.

Click next to line number to add/remove a breakpoint.

Highlighted line shows where execution has paused

Run commands in environment where execution has paused

Examine variables in executing environment

Select function in traceback to debug

Launch debugger mode from origin of error

Open traceback to examine the functions that R called before the error occurred

Step through code one line at a time

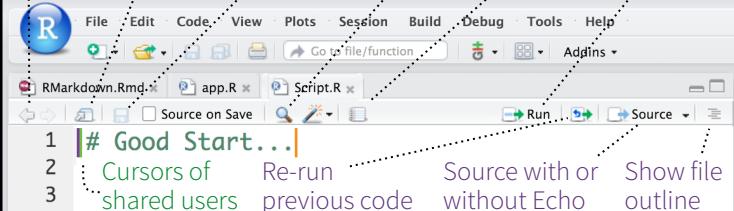

Step into and out of functions to run

Resume execution mode

Quit debug

Write Code

Navigate tabs Open in new window Save Find and replace Compile as notebook Run selected code

Cursors of shared users Re-run previous code Source with or without Echo Show file outline

Multiple cursors/column selection with **Alt + mouse drag**.

Code diagnostics that appear in the margin. Hover over diagnostic symbols for details.

Syntax highlighting based on your file's extension

Tab completion to finish function names, file paths, arguments, and more.

Multi-language code snippets to quickly use common blocks of code.

Jump to function in file Change file type

Working Directory Maximize, minimize panes

Press **↑** to see command history Drag pane boundaries

R Support

Import data with wizard History of past commands to run/copy Display .RPres slideshows

File > New File > R Presentation

File History Build Git Presentation

Import Dataset Global Environment Load workspace Save workspace Delete all saved objects Search inside environment

Choose environment to display from list of parent environments

Display objects as list or grid

Data Values Functions

iris 150 obs. of 5 variables

a 1

foo function (x)

Displays saved objects by type with short description

View in data viewer View function source code

Files Plots Packages Help Viewer

New Folder Upload Delete Rename More

Create folder Upload file Delete file Rename file Change directory

Path to displayed directory

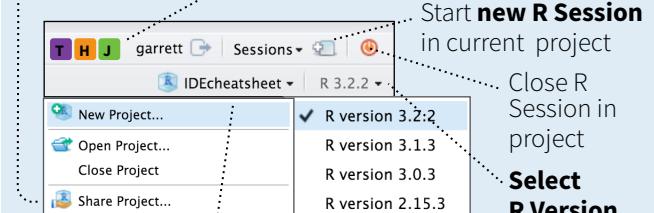

Copy... Move... Export... Set As Working Directory Go To Working Directory

19 B Apr 13, 2016, 11:17 AM

A File browser keyed to your working directory. Click on file or directory name to open.

Pro Features

Share Project Active shared with Collaborators

Start **new R Session** in current project

Close R Session in project

Select R Version

PROJECT SYSTEM

File > New Project

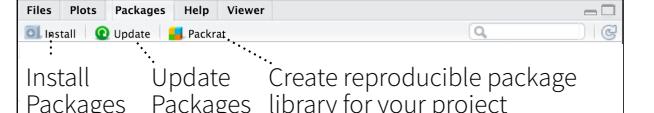

RStudio saves the call history, workspace, and working directory associated with a project. It reloads each when you re-open a project.

RStudio opens plots in a dedicated Plots pane

Export plot Delete plot Delete all plots

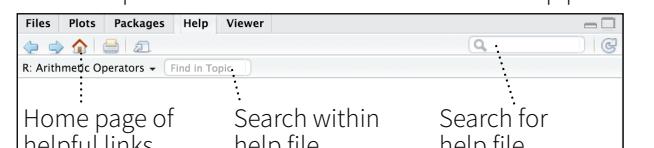

GUI Package manager lists every installed package

Click to load package with **library()**. Unclick to detach package with **detach()**

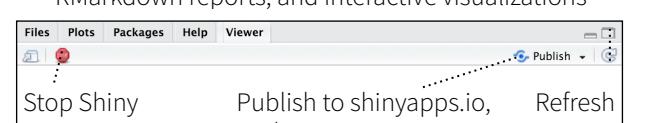

Package version installed Delete from library

RStudio opens documentation in a dedicated Help pane

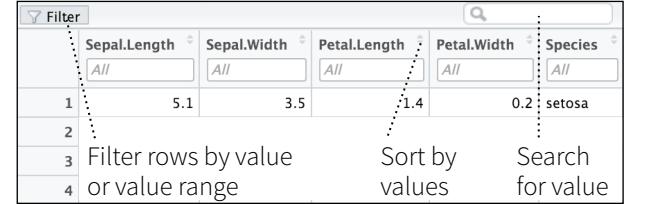

Home page of helpful links Search within help file Search for help file

Viewer Pane displays HTML content, such as Shiny apps, RMarkdown reports, and interactive visualizations

Stop Shiny app Publish to shinyapps.io, rpubs, RSConnect, ... Refresh

View(<data>) opens spreadsheet like view of data set

WHY RSTUDIO SERVER PRO?

RSP extends the open source server with a commercial license, support, and more:

- open and run multiple R sessions at once
 - tune your resources to improve performance
 - edit the same project at the same time as others
 - see what you and others are doing on your server
 - switch easily from one version of R to a different version
 - integrate with your authentication, authorization, and audit practices
- Download a free 45 day evaluation at www.rstudio.com/products/rstudio-server-pro/
